While a Global Home USA protection Plan will absorb a significant amount of the cost associated with home repair of systems and appliances covered by the plans, unfortunately there may be inconvenience and cost to the homeowner from pre-existing conditions, improper maintenance, improper installation or code violations.

Please read the following sample contract in order to understand what your warranty covers. Coverage will vary from state to state and will be determined based on actual terms and conditions in your contract.

### HOME INSPECTION SERVICE OPTION

Although a home inspection is not required, it is recommended that you have a professional home inspection prior to closing your home. While pre-existing conditions are not covered by a Global Home USA warranty, a home inspection would address these items when filing a claim. Please consider our new Home Inspection Service Option when ordering your warranty.

- B. Become inoperative due to normal wear and tear
- C. Are in good working order on the effective date of this contract and

2. This contract covers single family resale homes, condominiums or townhomes which are used for residential purposes only. It covers only systems, equipment or appliances that are contained within the interior of a condominium unit. It does not cover equipment, items, or systems that are owned by the condominium association or designated as a condominium common area. It does not cover commercial structures or space or properties where commerce occurs, even though shared with covered residential unit(s). It does not cover cabins, boarding houses, dormitories, fraternities, sororities, other cooperatives, mobile homes not attached to permanent concrete or concrete block foundation, and apartments with written leases less than one (1) year. Items and services not specifically listed as covered are not covered.

3. This contract covers the actual reasonable cost for repair or replacement of parts or components as long as the repair or replacement is made necessary by operational failure of the parts or components occurring during the Contract period. We have the sole right to determine if a part or component should be repaired or replaced. In the event of replacement, it shall be with material of like kind and quality, but not necessarily the same brand or color. The use of non-original manufacturer's parts is permitted in making repairs under this Contract. **If an item is non-repairable due to the covered failure of an obsolete or unavailable component part, we are not responsible for replacement of the entire item. We will be obligated only to make a reasonable payment based upon the value of installing a comparable component part that is available, subject to any per occurrence or aggregate maximums.** You shall provide us the opportunity to speak with the repair technician prior to their implementation of any repairs. You and the repair technician shall provide Us with sufficient information as to the cause and nature of the occurrence, as well as other pertinent information relating to the claim to the best of your knowledge and belief. This information also may include estimates relating to repair or replacement of the part or component which failed. We reserve the right to request additional opinion(s). **In all cases, work must be authorized and approved by us prior to implementation of the repairs.**

4. The contract term for the home buyer begins upon close of sale and lasts 1 (one) year from that date if the application is received and accepted with payment in full to Warranty Global Group, Inc. The contract term for New Construction begins one year after sale date and continues for three years from that date if the application is received and accepted with payment in full to Warranty Global Group, Inc. A New Construction customer is a first time owner of a newly constructed home which has not been occupied prior to the contract sale date. The contract term for Seller begins upon receipt and acceptance of the application by us and lasts for 180 (one hundred-eighty) days. Payment for the seller coverage portion of the Contract fee must be received by us before we can accept a request for service by the seller.

## B - CUSTOMER SERVICE

When service is needed, you are to telephone us at 1-866-237-4980, twenty-four (24) hours per day, seven (7) days per week (except the twenty-fifth (25th) of December). Under normal circumstances, we will initiate the performance of services during normal business hours by an authorized trade person or technician chosen by us within 48 hours after you request the services.

If a repair involves the loss of heating or cooling, loss of plumbing, substantial loss of electrical service or any other condition which renders a dwelling uninhabitable, it will be considered a temporary emergency condition. In event of temporary emergency conditions, you shall notify us of such fact through the use of our toll-free number so we may give the proper authorization to repair or replace to alleviate the emergency.

You shall give notice to us of any occurrence of operational failure that may be covered as soon as reasonably possible after the failure or malfunctions have occurred. You shall take every precaution to protect the property giving rise to the loss until the necessary repair or replacement is authorized by us and made. **YOU MUST NOTIFY US OF ANY LOSS PRIOR TO ACTUAL REPAIR OR REPLACEMENT.** We shall not be liable for a loss unless said notice is given prior to the expiration of your coverage, regardless of when the loss occurred.

For each trade service call, you will pay seventy-five dollars (\$75.00) Service Call Fee for Gold Plan members or fifty dollars (\$50.00) Service Call Fee for Platinum Plan members, or actual cost, whichever is less. The Service Call Fee is for each call dispatched including the event you fail to be present at the scheduled time of the trade service call or in the event you cancel a call at the time the service technician is in route to your home or the service technician has already arrived at your home. Your payment must be made prior to completion for each service call including, but not limited to trade service calls wherein coverage was granted excluded, limited or denied in whole or in part. If no defects covered by this Contract are discovered or repaired during a service call, then you are responsible for the cost of the entire service call. We have the option to suspend this Contract for non-payment of service call fees until such time payment is received.
